**ROLANDO F. HECHANOVA, RPAE, PhD**  
President  
This University

Thru: CHANNELS

Sir:

Greetings of Peace and Prosperity!

The Bachelor of Science in Industrial Technology program was nominated to apply for Center of Development (COD) which we are willing and very eager to work for it. Last February 11, 2021, we had submitted letter in response to this challenge. It was stated in the letter the major needs that should be provided with the help of this administration. On February 24, 2021, the University President required us in his routing slip to prepare necessary documents for such undertakings.

In line with this, we attached documents about the status of Industrial Technology including the comparison of state of the art laboratories and SKSU Industrial Technology Laboratories, updated Faculty Profile and the result of the 4<sup>th</sup> survey summary of findings and recommendations from AACUP.

Furthermore, the position of the Dean of the said college had tended his resignation due to health reason effective March 9, 2021.

Hoping for your positive response for this matter.

Respectfully yours,

  
**ARNEL Y. CELESTE, MIT**  
BSIT Program Chairman

Approved:

  
**ELMER C. BUENAVIDES, DIT**  
Campus Director
