

Republic of the Philippines
Sultan Kudarat State University
Isulan, Sultan Kudarat
College of Industrial Technology
A.Y. 2025-2026

UNIVERSITY VISION

A leading University in advancing scholarly innovation, multi-cultural convergence, and responsive public service in a borderless Region. public, accountability, transparency, and delivery of quality of services;

UNIVERSITY MISSION

The university shall primarily provide advanced instruction and Professional training in science and technology, agriculture, fisheries, education, and other related field of study. It shall undertake research and extension services, and provide Progressive leadership in its area of specialization.

UNIVERSITY GOALS

To produce graduates with excellence and dignity in arts, science and Technology.

UNIVERSITY OBJECTIVES

- a. Enhance competency development, commitment, professionalism, unity, and true spirit of service for the
- b. Provide relevant programs and professional training that will respond to the development needs of the region;
- c. Strengthen local and international collaborations and partnerships for borderless programs;
- d. Develop a research culture among faculty and students;
- e. Develop and promote environmentally sound market-driven knowledge and technologies at par with international standards;
- f. Promote researched-based information and technologies for sustainable development;
- g. Enhanced resource generation and mobilization to sustain financial viability. of the university.

1. COURSE CODE	: FSM 323 / FICJ 223
2. COURSE TITLE	: Traditional and Tribal Food Preparation and Services
3. PRE – REQUISITE	: None
4. CREDITS	: 5 units
5. COURSE DESCRIPTION:	: This course explores traditional and tribal culinary practices, focusing on indigenous food systems, unique cooking techniques, and the cultural significance of food in various tribal communities. Students will gain hands-on experience in preparing dishes using native ingredients, traditional methods like open-fire cooking, and preserving techniques. The course also covers the historical and cultural contexts of tribal food practices, emphasizing sustainability, ethical food sourcing, and the role of food in community rituals. By the end, students will develop the skills to prepare and serve traditional dishes while respecting cultural heritage and promoting sustainability in modern food contexts.

6. COURSE LEARNING OUTCOMES AND RELATIONSHIPS TO PROGRAM OBJECTIVES

BSIT PROGRAM OBJECTIVES The programs aim to produce graduates who can:	UNIVERSITY OBJECTIVES						
	a	b	c	d	e	f	g
A. Assume professional, technical, managerial, and leadership roles, in industries, and organizations with desired competence in the fields practiced such as Automotive, Technology, Civil Technology, Drafting Technology, Electrical Technology, Electronics Technology, Food Service Management, and its allied disciplines	/	/					
B. Innovate explicit and modern technologies in the advancement of economy, society, technology, and environmental sustainability.		/	/	/	/	/	/
C. Generate research-based information and technologies at par with international standards; and		/	/	/	/	/	/
D. Promote and transfer knowledge and technologies for effective and efficient school-industry partnerships.		/	/			/	/

7. Course Learning Outcomes

COURSE LEARNING OUTCOMES	PROGRAM OBJECTIVES			
	a	b	c	d
At the end of the semester, the students will be able to:				

a. discuss the history and origins of each tribal and traditional food,	/			
b. apply the proper methods in preparing the tribal and traditional food,	/		/	
c. prepares tribal food from different localities in the province,	/		/	
d. Create a mini book or recipe for each recipe,	/		/
