RECEIVED

Dear DR. Molao:

Greetings in the name of PAFTE!

To holistically prepare student-teachers for the realities of teaching, the Philippine Association for Teachers and Educators (PAFTE) in Region XII will hold a seminar-workshop that will focus on combining the use of AI and cutting-edge technology with positive discipline and restorative practices. The goal is to equip teachers with the skills to create a supportive, well-structured, and caring environment that meets both the academic and social needs of every student. This will be held in the **Gymnasium, Notre Dame of Tacurong College, Tacurong City on October 17, 2025, from 7:30am to 4:00pm.**

This year's theme: "*Building Smart and Caring Classrooms: Empowering Future Educators with AI, Positive Discipline, and Restorative Practices*" expected that the participants will attain the following objectives:

- a. equip them with the knowledge and skills needed to use AI and digital tools effectively in the classroom to improve teaching and personalize learning for all students.
- b. develop in them responsibility, self-regulation, and respectful behavior by teaching positive discipline methods that focus on proactive guidance and support instead of punishment;
- c. foster awareness about restorative practices that build strong relationships, resolve conflicts peacefully, and create a classroom culture based on empathy and mutual respect

With this, all Preservice Teachers in your esteemed institution are enjoined to participate. A minimal cost of Two Hundred Fifty (250.00) pesos per participant shall be collected for their registration to defray expenses related to the event.

Should you have any queries on the above matters, kindly contact the Secretariat through **Prof. Evelyn B. Bongco at 09395114009.**

Respectfully yours,

  
**DR. HONEYLYN M. MAHINAY**  
Chair, PAFTE RXII
